

VIACCESS Module

Setting up the “**Power Cam Reborn**” module for Viaccess encrypted channels with the DSR 5020 CI.

1. Press the “**Menu**” button on the RC.
2. The main menu will appear.
 - using the cursor keys, select “**7. Common Interface Manager**” and confirm the selection with “**OK**” on the RC.
3. Use the cursor keys to select the **Slot** in which the module is located and confirm the selection with “**OK**” on the RC.
4. Select “**CAS Setting**” using the cursor keys and confirm with “**OK**”.
5. “**Change CAS Setting**” will appear. Now select “**YES**” and confirm with “**OK**”.
6. Use the cursor keys to select “**CRYPTOWORKZ**” then press the “**OK**” button to set it to “**OFF**”.
7. Leave the menu by pressing the “**EXIT**” button. This will save the settings.
